H. CONSOLIDATED FINAL SUMMARY
Student : Jancilan
Seed Number : 8
Favorite Artist : Rico Blanco
Number of test sources : 5
Number of categories : 5
Total measurement records: 36
Distinct record types : 35
Repeated record types : 1

FINAL REPORT
The generated dataset contains five test sources and five measurement categories. Records are organized by source and cat
egory, and repeated entries are identified. Numerical summaries include count, minimum, maximum, mean, and median. Catego
rical summaries show the record counts for each source and category. The records are sorted and presented in a consolidat
ed report.
